## RESEARCH EXPERIENCE

---

**Research Assistant**

Sept 2024 - Dec 2025

Centro de Investigación de la Universidad del Pacífico (CIUP)

*Lima, Peru*

- Conducted diagnostic analysis of university teaching careers in Peru and contributed to the design of a compensation determination model for public university faculty under Professor Pablo Lavado.
- Supported impact evaluation of the Emergency Bonus implemented by the Dominican Republic Government following Hurricane Fiona (2022).
- Estimated return on investment in public health through cost-benefit analysis applied to overweight, obesity, and comorbidity treatment programs.
- Contributed to theory of change development and district prioritization using early childhood development indicators for Peru Sostenible's "Juntos por las Personas" intervention.
- Produced technical reports and presentations on labor informality, business competitiveness, and labor market dynamics.

## TEACHING EXPERIENCE

---

**Teaching Assistant - Econometrics I**

2025-II

Universidad del Pacífico

*Lima, Peru*

## RESEARCH

---

**The effect of parental death on early childhood education: evidence from the Peruvian case.** Victor Lau, Mauricio Chumbiauca; 2025 (Undergraduate Research Project). *Examined the impact of parental death on Peruvian children's educational outcomes (enrollment, study time, education expenditure) using Callaway and Sant'Anna's staggered difference-in-differences methodology. Found significant negative effects, with evidence suggesting household discrimination rather than wealth constraints or educational return expectations as the primary mechanism.*

## SKILLS

---

**Programming Languages**

Python, Stata, R

**Software**

Microsoft Office (Word, PowerPoint, Excel with VBA)

**Languages**

Spanish (Native), English (Advanced)
